Summary

Senior Software Engineer with extensive experience in full-stack development, cloud architecture, and technical leadership at BJIT. Proven expertise in designing scalable solutions using modern web technologies, mobile platforms, and AWS cloud infrastructure. Demonstrated success in leading cross-functional teams, architecting enterprise-level applications, and driving strategic technical decisions that contribute to successful project acquisitions and client satisfaction.

Experience

BJIT

Dhaka, Bangladesh

Senior Software Engineer

July 2025 – Present

- Lead and architect complex software solutions across multiple technology stacks for international clients
- Drive technical decision-making and provide strategic guidance on project implementations
- Manage end-to-end project delivery, from requirement analysis to production deployment
- Architect cloud infrastructure solutions using AWS CDK for scalable and maintainable systems
- Mentor development teams and establish technical standards across cross-functional projects
- Collaborate directly with stakeholders to define project scope and deliver business-critical solutions

BJIT

Dhaka, Bangladesh

Software Engineer

November 2021 – July 2025

- Developed full-stack applications using modern frameworks including React, Node.js, and mobile technologies
- Built robust backend services and APIs serving thousands of concurrent users
- Implemented real-time communication features using Socket.IO and WebSocket technologies
- Collaborated in agile development environments and participated in code review processes
- Contributed to client requirement gathering and technical solution proposals
- Delivered high-quality software solutions meeting strict project deadlines

American International University-Bangladesh

Dhaka, Bangladesh

Teaching Assistant (Internship)

January 2021 – April 2021

- Supervised a class of 40 students in Data Structures course
- Assisted in tutoring, reviewing assignments, and conducting classroom activities
- Supported the course instructor in planning and implementing course assignments

Projects

Travelling Assistant:

- Developed an Android application for automotive systems providing navigation, entertainment, and passenger features
- Implemented real-time communication using Sockets, integrated Map SDK, and media players
- Delivered production-grade software successfully used in field testing environments

Road Safety Application:

- Built a comprehensive mobile application to report traffic accidents with web dashboard for data analysis
- Collaborated on World Bank open-source project to improve road safety infrastructure
- Conducted user training sessions and integrated feedback for continuous improvement

Health and Therapy Platform:

- Architected and deployed a comprehensive healthcare aide platform using AWS cloud infrastructure
- Implemented Infrastructure as Code using AWS CDK for automated deployment and scaling
- Developed multiple web applications with responsive design and real-time patient-therapist communication
- Built and published separate native Android applications on Google Play Store
- Established CI/CD pipelines for automated building, and deployment across all platforms
- Designed secure patient data handling system compliant with healthcare privacy standards

Skills

Full-Stack Development: TypeScript, JavaScript, ReactJS, NodeJS, Socket.IO, AWS CDK, AWS Services, Serverless Architecture, HTML, CSS, REST API,

Android Development: Kotlin, Java, Jetpack Compose, Google Analytics

Tools & Platforms: Git, JIRA, Redmine, GitHub, GitLab, Gerrit, SQL, NoSQL

Education

American International University-Bangladesh

Bachelor of Science in Computer Science and Software Engineering

CGPA: 4.0/4.0

Dhaka, Bangladesh

January 2018 – August 2021

Achievements

Employee of the Year: Best Android Software Engineer at BJIT (2022).

Valedictorian: Graduated as Valedictorian with perfect 4.0 CGPA, 21st Convocation, AIUB.

Chancellor's Award: Prestigious award presented by the then Minister of Education.

Summa Cum Laude: Highest academic distinction, 21st Convocation, AIUB.

Media Recognition: Featured in [Prothom Alo](#) for outstanding academic achievements.

Training Excellence: Ranked 1st in competitive BJIT Academy training program.

Dean's List: Consecutive semesters on Dean's List (Fall 2018-2019, Spring 2018-2019).

Programming Competition: 3rd place in AIUB CS Fest 2018 Programming Contest.

1st in Dota 2: AIUB Cyber Gaming Fest 2019 (Team Game).
